Team Working and Team building activities

Either you are looking for a team working or a team building activity in the Italo-Swiss Lakes District, Lakes Lovers has a lot of proposals studied and created to fit your needs and to go beyond your expectations

Lakes Lovers is your partner in the organization of small and big sized group team experiences
in the Lakes Area and surroundings!

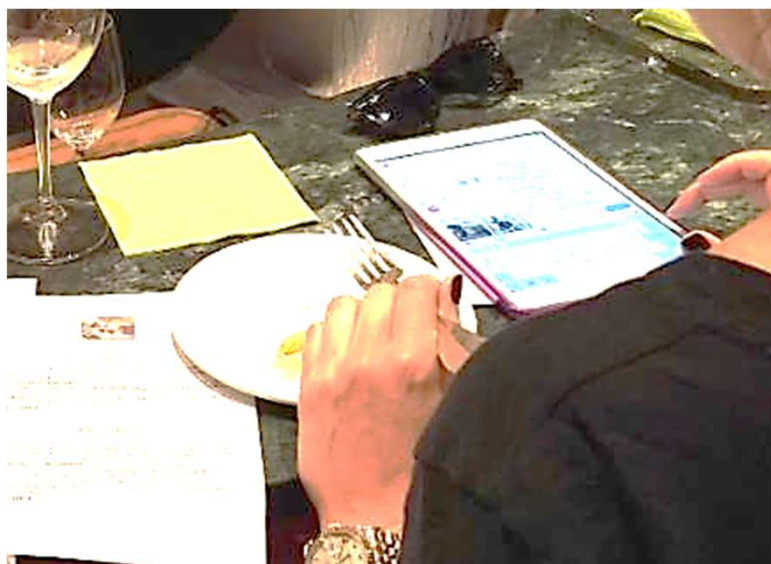

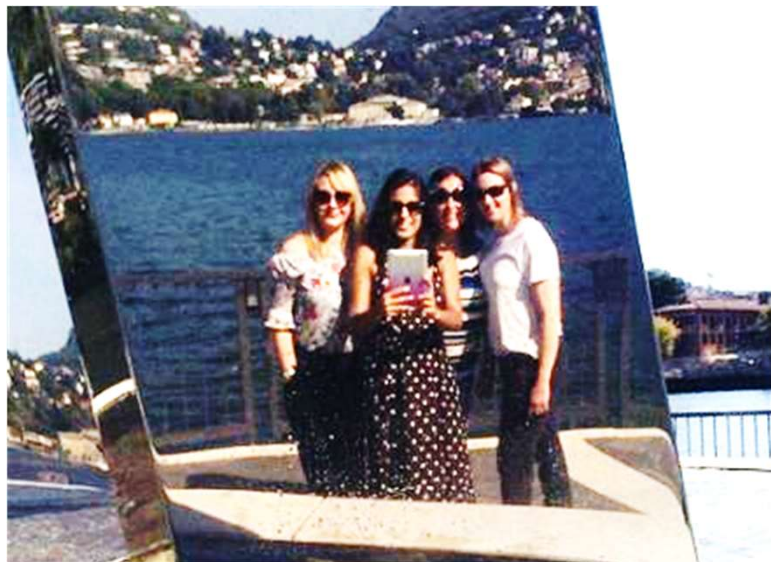

Lake Como, Lake Lugano, Lake Maggiore, Lake Orta, Lake Lucerne, Lake Zurich, Lake Iseo, Lake Garda
Depending on your wishes, goals, expectations, we'll give you our assistance in the organization of your meeting, convention, incentive or short stay with colleagues for leisure purposes and not only!

Find below some of the packages we can propose and send us your request indicating:

Number of participants, period, time at disposal, expectations

We have a lot of interesting formats, tested and customized several times in the last 20 years by our professional partners and colleagues.

We have also been asked a lot of times to think and create new formats able to fit our customers' desires, needs and goals: contact us and feel free to ask!

Discover the city you like more with our Urban formats

City Game
City Experience
City Social Hunts

Questions, riddles, videos, photos, food&wine tastings... a lot of fun!

The Urban Formats:

City game, experience and social hunt

City games: played with apps, tablets and dedicated software to help participants to get immersed in the reality of a city so as in a Virtual reality, full of surprises. Basically, when you play, you are asked to look at the screen of the tablet and to move here and there in the town following a sign sent you by the Gps. Every time you reach the next station, you are asked to solve a riddle in a few seconds, answer a question, make a 10seconds video, take a picture.... As soon as you send what required, you will receive by the app another point to reach. It's a fun activity, relaxed but dynamic, open to a lot of customization. At the end of the game, a great surprise: you a nice video of the best you did during the activity will be projected during a tasty aperitif or a lunch/dinner. Ask for further info: there are a lot of themes to know if you want to upgrade your experience!

City Experience: this format gives you some points to reach while you are discovering the city. When you are in one of the place required, you are asked to show us the place you are by sending a selfie/picture. Then, we reply to you with the challenge to face: you can be asked to paint on a canvas, make a video of a song or a movie, take some pictures like in a shooting, taste some wines or local products. Even if dynamic, it's also static when you are asked to be focused on you goal for about 15/20 minutes. At the end of the experiences, we collect the tablet provided and we declare the winner. There are many ways to give a proper end to this type of experience: you can present – team by team – the videos made and the picts taken, or you can have an apero with the food & wine tested/tasted during the game or you can talk about the painting (or part of it)... This format can also be proposed like a **URBAN ORIENTEERING**, where the teams are asked to drive themselves in town using a compass and a map...to find the next step and discover the next task

City Social Hunt: the social networks and the instant messaging apps are the world where this team game lives... Instagram, Facebook, WhatsApp, Telegram... you cannot imagine how much fun you can have by participating in this kind of team activities, sharing your experience (pictures and videos) in real time with the world!!

Ask for more info about our formats!

The Urban Formats: Catch the fugitive!

Entry level game:

Played by Samsung 7" or similar, this is the intriguing version of the most adrenaline-producing game of the moment! An ideal format for occasions such as company team....above all, for those who love games of strategy and a lot of adrenaline!

In order to defeat the fugitive, intuition, intellectual and problem-solving abilities, team work and tactical-strategic ability and a dash of luck are needed!

To commit the virtual robbery and accumulate the bonus, the fugitive must first have a number of specific, different objects for each single task: vans, drills, ladders and ropes, explosives, knives...that appear on the screens of both the fugitive and the agents, along with the locations of the where the banks to be robbed, and the number of Euros in each vault. Low price, high value!

Ask for more info about our formats!

Be actors, directors, stylist, photographers....

By using the devices provided or being assisted by our professional video makers and photographers, you will be the absolute protagonist of pictures and video, talking - for example - about your Company and the brands owned and managed:

Lip Dub
Cover / Calendar

Mannequin Challenge
Spot / Commercials

Diapositiva 6

ab1

ale biffi; 17/10/2018

Show off your theatrical skills

Lip Dub: What is a **Lip Dub**? It's a music video, in which the participants lip-sync to music, and later the original version of the music is dubbed in, replacing any audio that was recorded making the video. If you are ready to make a Lip Dub, let's look at the key elements for doing it right. The most important element is the music. It needs to be a song that people are going to like, preferably something fun and upbeat. The cast should wear a variety of clothes/costumes, use lots of different props, and perform a lot of different actions. You and your "teammates" will be either director and actor, hair stylist and dancer!

Mannequin Challenge: a great format, suitable for occasions where the time available is limited, but you want to experience something that is long-lasting. In this case, too, a beautiful song is the starting point, as well as the location that must accommodate all participants deployed nearby, but not too close...!! Our coaches, directors and video makers will take care to educate the participants, costume designers and make-up stylists to prepare you for the moment of recording, if you wish: the result is memorable, with all the protagonists of a cheerful video in very original poses. Alternatively, you can also propose you a **Flash Mob**!

Cover/Calendar: an exciting activity to enhance the creativity, imagination and spirit of initiative of the team. A great teamwork that involves a strategy to study and the roles to be assigned to reach the final goal: Create The Cover Of A Fashionable Monthly / Create The New Calendar Of The Company. Protagonists: all the members of the team. Each team must choose and dress the location/set, create the dress, make up the model/s. Creativity, imagination and manual skill of the individual components will be fundamental.

Spot / Commercials: Teams will be challenging each other to make the most creative commercial (video or photo) about the product or their Company. Then, the commercials can be edited (after the activity) and shown on the screen during or after an aperitif or a dinner (to be defined). This is an emotional, involving and unique moment able to summarize a day of work and give a sense of positivity.

*****Theatre and Impro:** the commercials and this kind of activity can also become a tool of aggregation and networking, and help participants to reflect on their everyday lives and jobs and, above all, to "experience" the product and its features.

Commercials can be also used as a tool to communicate within the Company or/and externally.

We propose a methodology which is inspired by the worlds of movie and theatre.

Real troupes will be created with directors, actors, scriptwriters, costume designers and make up artists. They have to make a video commercial all together.

Teamwork becomes an involving and creative game and the possibility of experiencing a real movie set in a spectacular frame.

Build with your friends and colleagues

By using the items provided and being assisted by our assistants, you have to face some “building challenges” ... either you are asked to use cardboard, paper, tape or whatever, you’ll have to show creativity, engineering skills, problem solving, cooperation and competitiveness :

Carton car
Build a raft
Carton boat
Bikes for children (Charity format)

Build with your friends and colleagues

Carton Car: this big challenge will see teams trying to achieve the creation of an impossible prototype: a machine made entirely of cardboard, able to move with an adult on board whilst being pushed by the others during the competition. The goal is seemingly unattainable, resources appear inadequate to meet the challenge, the budget is small, the materials available are not enough...

Carton Boat: The construction of a carton boat is one of the funniest and advanced activities a team can enjoy, where the use of unconventional materials to reach the final goal stimulates the imagination of the participants. Each team should create a carton boat and complete a meter relay.
The activity underlines group work, the organization of the team and the importance of problem solving abilities...

Build a raft: The construction of a raft is one of the funniest and advanced activities a team can enjoy, where the use of unconventional materials to reach the final goal stimulates the imagination of the participants. To declare the winning team, different features will be taken into consideration:
ability to work with the team, organize the activity and share the task; use of the available budget...

Bikes for Children: it "is a team building activity that offers a rare opportunity to make the difference, with tangible results in the process of organizing a team, but also in the awareness of doing something "useful ". Armed with tools and enthusiasm, the teams challenge each other to build children's bikes "in a workmanlike manner". The collaboration, the right division of roles and a common tension towards the goal are the keys to success.

And:

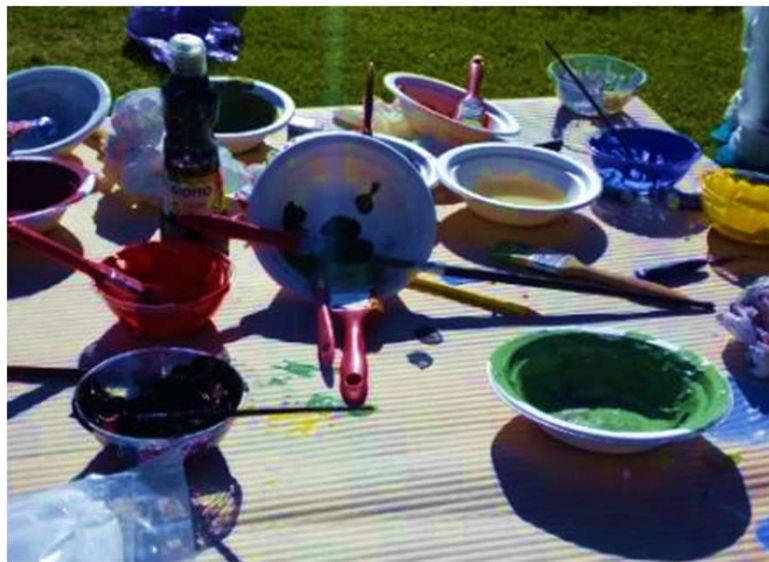

The Ideal City (Lego / Pasta / Marshmallow building)

Design Workshop

Build a catapult

Snow/Christmas Slope

The Christmas Tree

Share your creativity skills

Paint, sing, play, drum, dance: our formats (and the assistants) will drive you to discover something unexpected... your ability in singing, painting, drumming...

Painting
Chorus/Musical

Drumming
Unexpected orchestra

Share your Creativity

Painting: This is a creative and engaging activity that can also consist of the realization of a fresco with themes and objects belonging to the company's life: the possibility to take their own work to the company, leaving an indelible mark. The participants will have to juggle between brushes and palettes, using their skills, knowledge and imagination as well as the directions supplied by our painters/trainers/assistants. Every picture painted will be subject to an evaluation, not only artistic, but also determined by the group dynamics (organizational skills, division of tasks, problem solving, stress management etc.).

Chorus: A form of entertainment specifically designed to stimulate the spirit of aggregation, teamwork and collaboration. Participants are the true protagonists of the event, playing music, singing, improvising and having a lot of fun! At the same time is a matter of "experiential education"... There are times, in business life, when "the stress and the interpersonal relationships" management becomes difficult. Sometimes missing that bit of harmony that encourages communication among members of a team. Increasingly, it is not the flexibility needed to compete and overcome difficulties.

Musical: the musical is a team building perfect if you want to work on elements such as sharing, teamwork, fun and challenge. The project is aimed at sharing and involving all participants.

The unexpected Orchestra: From a starting point of practically non-existent musical skills, a team capable of producing excellent results emerges. The integration between the group members is made easier and a huge boost of energy and emotion is generated. The challenge is a great surprise to the participants and initially appears to be impossible. They have to become a great orchestra in a few hours....by using unconventional instruments. The experience of putting together a musical group will amaze the participants for the speed with which they are able to put into motion mechanisms which are usually take much longer.

Drumming: playing a unique rhythm, like a real orchestra: Djembe, Bass drums, small percussion, rattles, "Boomwackers" the famous colored sound tubes, are the tools of this energetic team building.

And: Sculpture, The Snowman, The Circus experience

Everybody in the kitchen and “hands in pasta”!

From wine tastings with food pairing, to quizzes about the food&wine world, from cooking lesson to the best team building ever... in the kitchen!

Tastings
Cooking lessons/classes

Food&Wine games
Team building “hands in pasta”

Hands in Pasta! Everybody in the kitchen

Tastings and pairings: a wide range of combinations, with wine, beer, oil, rum, whiskey tasting ... combined with local products, tailor-made dishes, chocolates of varying purity. To coordinate the workshop professional chefs and sommeliers. If requested we can integrate the experience with specific quizzes.

Quizzes and games related to food and wine: we can offer a series of games and team building that introduce the world of food and wine, craft beers, oils, blind tastings, recognition of tastes and aromas, search for ingredients, quizzes related to certain products etc. These games can be organized either during a tasting or an aperitif, a lunch or a dinner, with additional tests and challenges between one course and another, and the final announcement of the winners.

Cooking lessons: meetings with professional chefs who introduce you to the secrets of local or national cuisine, with the preparation of "hands in dough" of dishes, from appetizers to desserts, possibly with a series of indications about condiments, sauces, combinations.

Team building in the kitchen: from the preparation of more cold and / or hot appetizers, to a menu of 3, 4 or more courses, up to the preparation of an entire company dinner, gala or Christmas. Depending on the number of participants, the time and space available, we will build the best format by completing the experience with the presence of gifts for the participants (branded aprons, typical products for free, etc.)

Others:

The preparation of the perfect picnic

The local "schiscetta" creative or traditional: the lunch-box to bring to the office

Verticals of wines with matching

Create your own label

Bar Challenge, the challenge to the latest brand new cocktail

Special team building experiences!!

Beyond your expectations with our unconventional experiences: you'll conquer an island, escape from a city, get in private buildings, cruise and play on the lake....

Conquer the Island
Photo- Rally on the Lake

Discover the Sociale Theatre
Escape from the city

Unconventional & unexpected Team building ideas

Beyond the conventional!

Escape the town: an intelligent and engaging evolution of the “escape room concept”. A format for medium/large size groups, a "time competition" with riddles to solve, codes to decipher, tests to be overcome in a limited time ... what will be the fastest team?

Legends of the Isola Comacina: the only island of Lake Como, legends and traditions to tell, and a series of innovative and experiential team building to be lived, including history, architecture, mystery and skill-tests.

Discovering the Teatro Sociale: an exclusive and original opportunity to experience the famous Theatre in Como, in an unusual and fascinating way, with the possibility of an unexpected culinary experience.

The photographic rally of the lake: cruising on an elegant taxiboat, divided into teams, you will sail with your captain from one point to another of Lake Como experiencing a team competition that will aim to make you discover glimpses, panoramas, details, villas , having fun!

Other ideas:

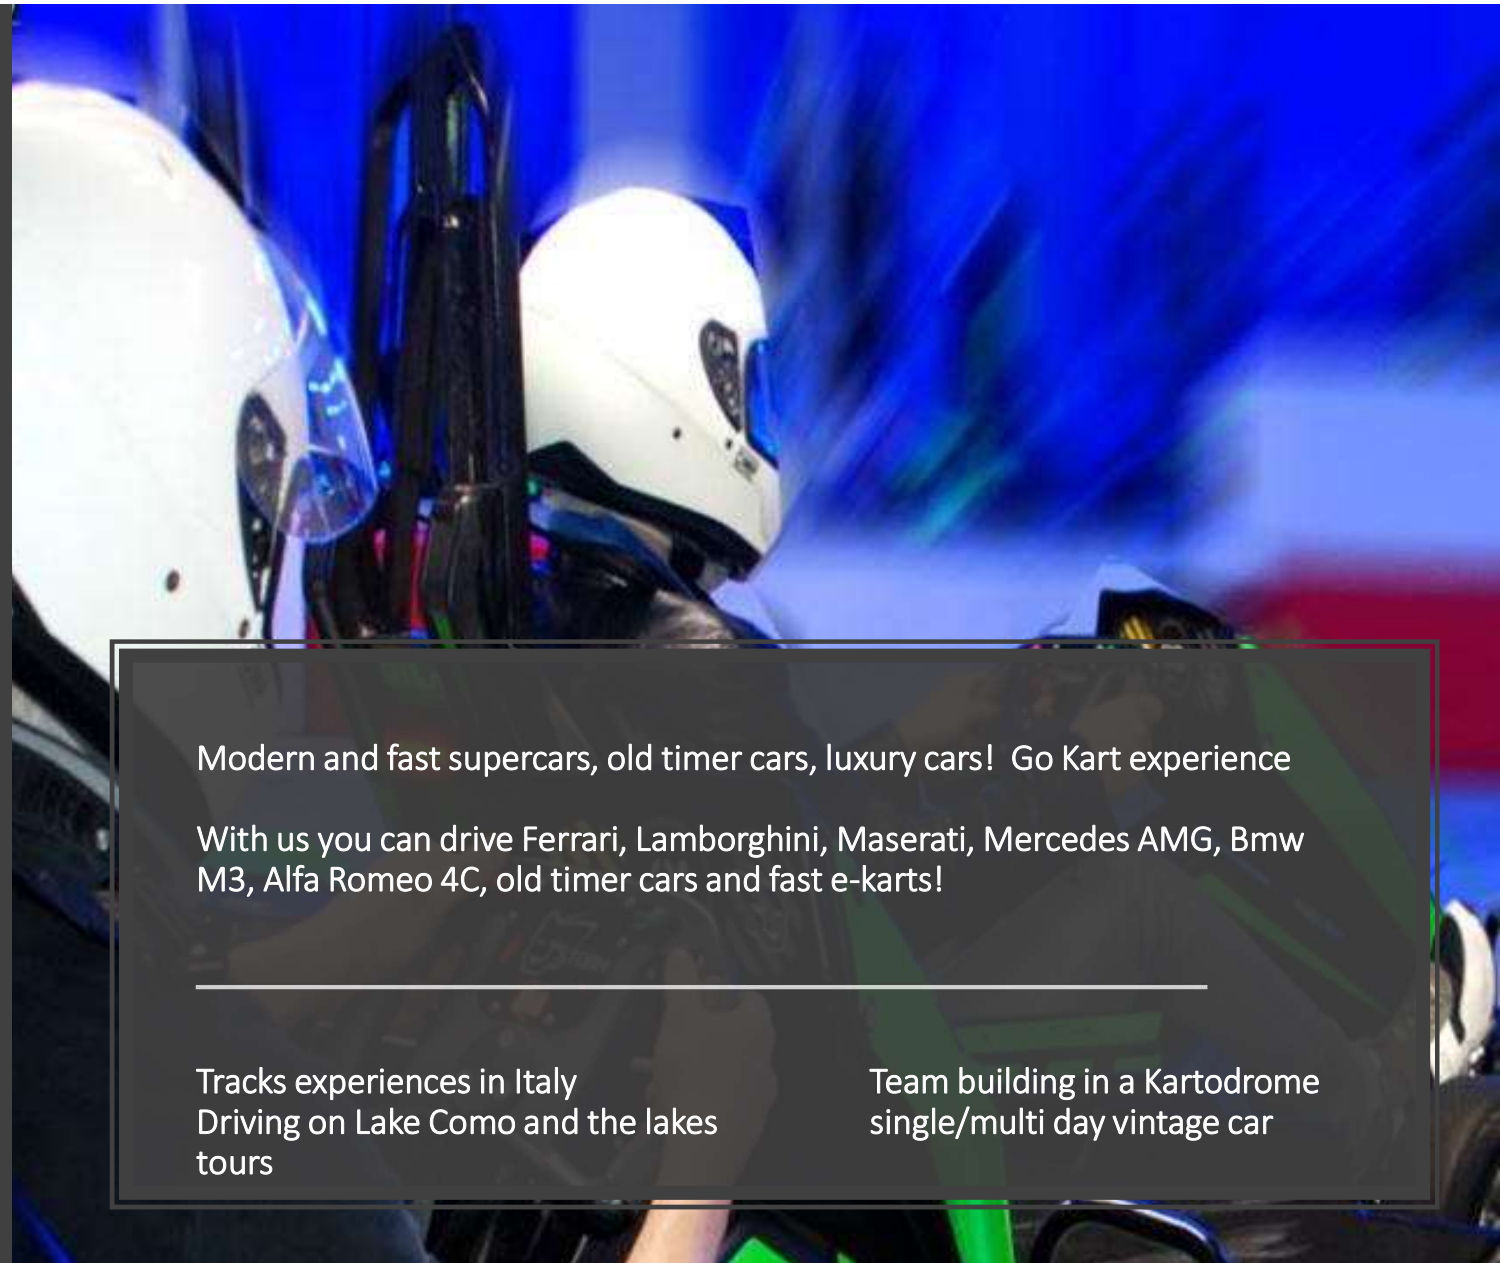

Not just Lake Como: the treasure hunt discovering the Borromean Islands of Lake Maggiore, or the Islands of Lake Iseo...

Orienteering (walking or canoeing) in the woods and in the Brianza small lakes, a few kilometers from Como

Meeting with the artist: one of the most exclusive activities, the visit of the atelier of an artist, with a tasting and a gift of great value

A chat with the fisherman: during a private boat cruise, we will organize a stop at a fisherman to let you discover the secrets of local fishing

The tradition of shipyards: sailing, electric or motorized boats? We will introduce you to the best builders and designers of Lake Como (and more!)

Modern and fast supercars, old timer cars, luxury cars! Go Kart experience

With us you can drive Ferrari, Lamborghini, Maserati, Mercedes AMG, Bmw M3, Alfa Romeo 4C, old timer cars and fast e-karts!

Tracks experiences in Italy
Driving on Lake Como and the lakes
tours

Team building in a Kartodrome
single/multi day vintage car

Drive Experiences!

Tour of the Lakes:

1 day tour or multi-day tour with overnight stays in hotels and exclusive villas

Modern cars: Ferrari, Lamborghini, Maserati, BMW, Mercedes AMG, more on request

Vintage Cars: Fiat, Lancia, VW, Mercedes, Triumph, Alfa Romeo, Mg

Motorcycles and Scooters: Ducati, Moto Guzzi, Vespa and more on request

RoadBook, Tablet, gadgets, treasure hunts, assistance, lunches, dinners, tastings, meetings with pilots etc

Activities in a Kartodrome

Mini GP in go-kart track / Ice Guide

Race simulators / F1 Experience

Tracks in Exclusive use for: Test - Qualification - Race

Prizes / Aperitif and Dinner (Possibility of entertainment with interactive thematic games and / or Live music and / or DJ SET)

Activity with exclusive track

Approximately 2 or 3 hours of track use (circuit to be defined) Hours: 9.00/12.00 - lunch to follow or 15.00/18.00 followed by dinner

Welcome coffee and registration in a reserved hospitality area

Technical briefing with instructors

Driving experience (number of laps to be defined) at the wheel of Ferrari F458 Italy / Alfa Romeo 4c / Bmw M3

Hot fast lap with an instructor on a racing car

Souvenir photos, certificates of attendance

Possible dinner outside after the experience in restaurants to be defined
